## OBJECTIVE

---

Passionate Full-Stack Developer with 6 months of hands-on experience in building innovative web and mobile applications. Skilled in React, React Native, Node.js, Python, and Firebase. Dedicated to creating seamless, user-friendly solutions with strong problem-solving and collaboration skills. Looking for opportunities to contribute to impactful projects and grow as a professional developer.

## EDUCATION

---

<b>Bachelor of Computer Science</b> , Fast University Chiniot	2019 - 2025
<b>FSC</b> , Kips College Faisalabad	2017 - 2019

## SKILLS

---

<b>Programming Languages</b>	C++, Python, JavaScript, HTML, CSS, TypeScript
<b>Frameworks &amp; Libraries</b>	React.js, React Native, Node.js, Electron, Blockly, Next.js
<b>Databases</b>	MongoDB, MySQL, Firebase
<b>Cloud</b>	AWS S3 (Storage and File Handling)
<b>Design Tools</b>	Figma (UI/UX)

## EXPERIENCE

---

<b>Mobile App Developer Intern</b>	26th May 2025 - 26th Aug 2025
Exeonic, People's Colony No. 1, Faisalabad	

- Worked on Mobile and Web App Development projects using React Native, Next.js, and Firebase.
- Developed **Halal Connect App** A full-stack web solution to connect users with halal-certified businesses.
- Contributed to a real-time mobile application **WagSafe App** for pet safety, featuring location monitoring and alerts using React Native and Firebase.
- Gained strong experience in building mobile-first, scalable, and user-focused solutions.

<b>Intern - Python &amp; React Programmer</b>	Jan 2025 - Feb 2025
SMHcoders FZ LLC (Remote, UAE)	

- Developed a desktop application integrating Blockly within an Electron environment, with a Python backend processing CSV files and interacting with MySQL.
- Implemented WebSocket communication for real-time status updates, dynamically updating Blockly block colors.
- Ensured seamless frontend-backend integration, enhancing user experience through efficient data processing and dynamic UI feedback.
- Collaborated with professionals, demonstrating enthusiasm, dedication, and a strong willingness to learn.

## PROJECTS

---

**Halal Connect App.** Full-stack web platform for connecting users with halal-certified businesses. Built with Next.js, React.js, TailwindCSS, and AWS S3 for secure image uploads. ([Live Demo](#))

**WagSafe App.** React Native mobile application for pet safety, enabling owners to monitor their pet's location and receive alerts via Firebase.

**HomeStyle Furniture Website.** Furniture management platform built with ReactJS, Node.js, and MongoDB. Featured role-based access, product management, and cart system.

**Electron Desktop App.** Developed for SMHcoders with a Python backend for CSV processing and MySQL integration, featuring real-time WebSocket updates.

**AREAS OF INTEREST**

---

Web Development	Mobile App Development	Software Development
